

Small-scale Technology Certificate Assignment for Solar Water Heaters and Heat Pumps

On completion please fax, email or post, this assignment form with proofs of purchase and installation
FAX: 1300 592 247 **EMAIL:** stcs@envirobank.net.au **POST:** Envirobank Admin, GPO BOX 3272 Sydney NSW 2001

SYSTEM OWNER'S DETAILS

Name: _____ Phone: _____
 Address: _____ Postcode: _____
 Email: _____ Mobile/Work: _____

INSTALLER'S DETAILS

Company Name: _____ Installer Name: _____
 Address: _____ Postcode: _____
 Email: _____ Phone: _____ Mobile: _____

SYSTEM DETAILS

Install Address: _____ Postcode: _____
 Install Date: ____/____/____ Brand: _____ Model: _____
 Tank Serial N^o: _____ Tank Size: _____ N^o of Panels: _____
(Zero if Heat Pump)

TYPE OF INSTALLATION

Which of the following categories does the installation fit into?

- Installed as part of a new building
- Replaces an electric hot water system
- Replaces a solar water heater (including boosted solar water heaters)
- The first installation of a water heater at an existing building
- Replaces a gas hot water system
- Other (please specify) _____

SYSTEM OWNER'S DECLARATION

I am the owner of the above installation and I agree to assign my right to create STCs to the agent Envirobank Pty Ltd. I have not previously assigned or created any STCs for this installation.

The system is eligible for _____ STCs. In exchange for assigning my right to create these STCs **pay \$** _____ :
NB: Should this amount be incorrect on receipt of this assignment, Envirobank will notify the selected payee

- My supplier/installer** for my point of sale discount
- Me**, by direct deposit, into my account details below

A/C Name _____ BSB N^o _____ A/C N^o _____

I am aware that penalties can be applied for providing misleading information in this form under the Renewable Energy (Electricity) Act 2000. I have read the information for assigning STCs and the terms and conditions on page 2.

Small-scale Technology Certificate Assignment for Solar Water Heaters and Heat Pumps

OWNER INFORMATION FOR ASSIGNING STC'S

Owners of eligible solar water heaters (SWHs), including heat pump water heaters, may qualify under the Renewable Energy (Electricity) Act 2000 (the Act), to create Renewable Energy Certificates (STCs). STCs exist electronically in an internet based registry managed by the Office of the Renewable Energy Regulator. In the context of SWHs, each STC represents the equivalent of one megawatt hour of renewable energy generation. STCs have a value determined by the market in which they may be traded.

Owners of an eligible SWH have two options to benefit from STCs:

1. Register with the ORER, apply to create STCs, negotiate the sale of STCs to an interested party and transfer STCs to the purchasing party; or
2. Assign their right to create STCs to an Agent. In return, the Agent may provide a discount on the purchase price of the SWH, offer a one-off payment for the STCs, or agree to some other financial arrangement.

The financial value of a STC is dependent on the supply of and demand for STCs, and may vary between buyers from day to day. STCs may only be created once for a SWH and they must be created within 12 months of the solar water heater installation date. Any instance of improper creation of STCs, under Section 24 of the Act, may result in referral for prosecution regardless of the reason for the improper creation. Providing false or misleading information under Part 11A of the Act is a criminal offence. For further information on STCs and SWHs, please see the ORER website: www.orer.gov.au or contact the ORER on 02 6159 7700
